

**Identifying your world.**

*your* **LSI.com** | Identification Systems • 800.737.3032

For over 40 years, LSI has partnered with businesses, government agencies, universities, and Fortune 100 corporations around the world to secure their facilities. We have been on the cutting edge of ID/Access card personalization for over two decades and are continuing to lead in the evolution of card security.

We've learned through experience what it takes to be the best ID badge security provider for these organizations and strive to be your one-stop shop for all things ID badge related. We know each business we work with is more secure than they were before, and it's not a task we take lightly.

Our dedicated team of sales, marketing, programming, integration, and hardware service/support professionals stand ready to serve you and build tailored products for your business.

## Pay less for prox cards. Guaranteed.

LSI is an industry leader in technology cards. We sell millions of proximity and smart cards each year. With access to brands like HID, 3miiID, Identive, Allegeon/XceedID, and Indala, LSI is able to provide our clients with quality technology card stock at significant savings.

# Visitor Control Systems

Could your business benefit from streamlining corporate security checkpoints? What about tracking all personnel, vendors, service people, or guests quickly and easily all from one system?

With Visitor Control Systems from LSI - your business' security is in your hands. Track all visitors without ever having to manually enter data on a keyboard or paper log, saving you time and increasing accuracy. By utilizing Optical Character Recognition (OCR) the VCC actually scans any government issued ID (ie: driver's license, military ID, passport, etc.) and automatically enters the data into your database. You choose the information you want to track and VCC simply collects the information from the ID and enters it into the selected fields. Once the information is entered, you can produce identification badges and passes. The information is stored and can be retrieved when the person visits again so security personnel know whether to grant or deny entry.

Accountability has never been easier. By simply accessing your system, you can find out exact times and dates for individuals who visited your organization, who they visited, and if they are still in the building, all in a few keystrokes.

## **VCC options include:**

- Visitor history log
- "Banned from premises" notification
- Facility evacuation support
- Third party watchlist / database
- Background checks
- Remote guest registration
- Parking decals
- Email / text notifications of guest arrival

## **BMS software makes it easy**

Ease of use, flexibility, and ongoing support make your experience with BMS Software productive and consistent.

## **Go directly to the source.**

Choosing BMS allows you to work directly with software programmers and engineers to create a tailored system for your organization.

# **Badge Management System**

Unparalleled performance, unmatched service, and affordable customization make the Badge Management System (BMS) suite of software the right choice for your ID/smart card issuance needs.

BMS software isn't mass-produced as a resell product or limited support sales model, but rather is tailor made for your needs, budget, and expectations.

Since 1991 LSI has developed, manufactured, and distributed BMS to organizations around the world. Our ownership of the BMS product allows our staff to take a hands-on approach to each specific project in which we're associated. This results in our clients receiving the exact software they need, with unlimited options for future development.

### **BMS clients enjoy features such as:**

- Customizable screen design
- Unlimited badge templates
- Data-driven functionality
- Flexible photo capture
- Badge production & tracking
- Data exporting & record reporting
- Manage access
- Unique configuration
- Manage data via intra/internet

**BMS is best for:** Government Agencies, Large Corporations, Small & Medium-sized businesses, Educational Institutions, Healthcare Organizations, DOD Contractors, Ski Areas, Parks, and Clubs.

**Get the perfectly tailored security solution.**

Our in-house BMS software can be tailored to any size business making it the perfect, modern security solution for your needs.

## The badge supplies and accessories you need, all in one place.

LSI offers an extensive line of identification badge supplies from printers to ribbons, lanyards to pouches, custom printed cards, lamination equipment, badge management software, and access control supplies. LSI is your one-stop shop for identification products and services.

### Don't settle for average. Customize it!

Let our professional staff help you create the exact products that fit your organizational needs.

## Get the right printer for your needs.

Do you know what type of specifications your badge printer needs to be a perfect fit for your business? If not, don't worry! LSI has been selecting, repairing, and offering technical support for badge printers for over 20 years.

We can help ensure you get the right printer that produces cards at the speed, color quality, and price point that matches your needs.

### Here are a few factors that go into picking the right printer:

- Speed of printing
- Color quality
- Badge security-level differences
- Single or double-sided printing
- Additional lamination options available

Already have a badge printer that just needs maintenance? Our team of certified technicians can diagnose your machine and make any necessary repairs to keep you up and running.

### Here are the businesses we work with:

# Let us be your card office.

Sometimes an in-house solution to badge management isn't the ideal investment for businesses. In these cases, outsourcing all your card production to LSI can have lots of benefits. Instead of investing in hardware and staffing, we can completely manage the process for you so you can get back to focusing on your business. We manage businesses of all sizes located all over the globe.

### Here are some other scenarios where choosing us is cost effective:

- Corporate rebranding
- Business acquisitions / mergers
- Start-up needing to establish security
- National or multi-national business footprint

## **Skip the line, it's selfie time!**

With the BMS Self-service Photo Enrollment Module your students can upload their "selfies" directly to your student ID database from their smart phone. Say goodbye to long lines and hello to happier students and staff.

2950 Brother Blvd., Suite 103  
Bartlett, TN 38133-8943
